

# C.A.R.T.S.

## Discover Your Regal Zee Zees Ranking

Ask a friend to tell you a number between 1 and 6. This number is the magic number!

Starting with "Your Living Quarters", count through every option until you reach the magic number. When you land on the magic number, cross that item out! Count your way down the lists, crossing out each line with the magic number, until you have only 1 remaining option in each category.

Ex) Your magic number is 4. Cross off Townhome, then Wood Carving, and every 4th option until only one line in each category is left.

### Your Living Quarters
